To Whom It May Concern:

We at the Weiss Group have been pleased with our experience with Veteran Payment Systems. SLADA's well-researched endorsement and Veteran's industry experience and knowledge made us comfortable in using their services.

Veteran has delivered on the proposed savings by placing us on the Interchange Plus Pricing program they have put together for SLADA members. Because of this, we are experiencing a relationship of both integrity and transparency, while saving thousands of dollars a year.

The onsite, face-to-face installation made the transition from our old provider easy. Their service has proven to be thorough and our questions and requests have been rapidly addressed.

If you are looking for low price and quality service from a payment processing partner, I highly recommend Veteran Payment Systems.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Prince", with a long, sweeping flourish extending to the right.

Brian Prince
